To be a successful Software Developer in the IT industry armed with curiosity, passion, and dedication to programming and delivering outstanding projects.

EXPERIENCE

ALPHATECH, HETAUDA, NEPAL   **2019-2021**
FULLSTACK DEVELOPER (REACT)

- When I worked at Alphatech, I designed a Lo-fi to Hi-fi layout design for a complete web application.
- In many projects, I have used Material UI framework to build high-quality digital experience for around 2 web apps.
- In one of my live projects, I researched the SEO tools required to perform search engine registration and ensure that my site is well optimized.
- During my tenure in Alphatech, I was awarded excellent team player of the year 2020.
- Test overall project using the python script.
- CTO of Alphatech named me as excellent troubleshooter of the company.
- Excellent knowledge of JavaScript.

YOUNG INNOVATION, KATHMANDU, NEPAL   **2018-2019**
FULL-STACK DEVELOPER (PART-TIME-REACT)

- Designed and developed 5+ frontend and backend applications using React.js, Node.js, Express.js and MongoDB.
- Developed readable, testable, structured, and maintainable code.
- Create a restful API which can be later used for mobile application development.
- Helped develop and implement frontend libraries in architecture design, patterns, and approaches.

EDUCATION

CONESTOGA COLLEGE   **2021-2022**
WEB DEVELOPMENT
I completed my 2 year post graduate certification this December from Conestoga College with excellence.

HARYANA ENGINEERING COLLEGE   **2015-2019**

COMPUTER SCIENCE AND ENGINEERING

Completed 4-year university degree (Bachelor Degree) with excellence.
